9. 8. 1957.

Dear Dr. Lederberg,

it might interest
you to hear that I have
received an invitation to
come to New York in November.
For your information I
enclose a copy of the letter
of invitation which I
received last week. Of course,
I should very much like
to see you and have at
least a talk with you. Perhaps
you are coming to the

conference? Or have you
other suggestions? Should
you want me to come
to your College I would
be quite prepared to give
a lecture or a demon-
stration. Let me know
what you suggest.

Sincerely yours,

E. Klieneberger-Nobel.
